## What Schools Do In Future

Students help from location hunting to shooting The leftmost student in the picture named this activity “FLYERS” Photo by Nishibeppu

Hinode Gakuen has a volunteer group called “FLYERS”. Applicants of junior high school 1st graders to high school 3rd graders can participate. This activity is also open to students who are doing club activities. They can't learn about this activity in class. “FLYERS” started with the help of a school information session in 2015. Students knew how comfortable it was to interact with people, and they wanted to do many things in addition to the briefing session. They talked with the teacher and asked if there were anything that students could participate in because there were many people coming to the school such as companies. After that, they experienced many things such as meeting with companies, filming TV programs, filming music

videos, and guiding daily visitors. This English newspaper is one of them. Any student can participate in what they are interested in.

The origin of the name was initially called “Family Club” by a teacher, but the first students (centered on the leftmost student in the picture above) changed it to be “FLYERS”.

“Flyers” (dissemination of school information from students), “Fun loving youth en route to success” (A name for an American youth who loves fun while aiming for social success. A generation that replaces Yappi.) As the name suggests, many students are participating in various activities.

Mr. Ishikawa said why he started this activity. “In the future, there will be fewer occupations, but I would like you

to challenge unanswered questions from junior high and high school students. There is no such word as “failure or mistake” in this world. If there is, I want you to be a student who can make it positive. And if you give “Pay it forward” to everyone, it will be “Give back”. As a member of the Hinode Gakuen Family, this is an activity that I would like to connect with in the future.”

There are many things that students have learned through this activity. There is no answer like a collection of questions for people, and each person is different. The work is not from chimes to chimes. A job ends when it is close to 100%. It is difficult to get close to 100% in time. It is certain that knowing these things has changed the way of life and the way of

thinking. In the future, students will actively implement what they thought.

学校法人 平田学園 国府台女子学院

There are many private schools in Ichikawa City. Many candidates take the entrance examination of each junior and senior high school every year. Do candidates know the real pleasant school life they will go to?

In junior high schools and high schools, applicants spend most of its waking hours. In the past, there were many people who took the examination only by the school name without visiting the school to take the examination. Also, many applicants attended the school briefing session, see the wonderful students and entered the school. It is necessary to know many advantages and disadvantages before entering.

There are convenience stores in private schools, but students

in school want to have A convenience store because they want to eat soft cream, and B convenience store is good because they want to eat fried chicken.

Also, "I want an escalator to be installed because there is an elevator." "I want air conditioners to be installed in gymnasiums, hallways, toilets, etc." People are greedy. It is important to take a tour and think about how applicants enjoy their school life.

Hinode Gakuen Junior High School and High School allow applicants to visit the school every day and see the students as they normally do. Applicants can see the daily appearance of current students that cannot see at briefing sessions, physical education festivals, school

festivals, etc. If you can see the day-to-day appearance, then you can imagine how you can grow in junior and senior high school by attending briefing sessions.

There are many crimes in the present world. It is difficult for people to enter school because of security issues. However, because there are applicants every day, the students will be able to come in contact with many people and greet them naturally. Current students can communicate with outsiders and naturally become social and lively after graduation.

Since applicants can visit other schools every day, if they have time, please come and see the real pleasant school life. Is it difficult to come because they have classes in their school every day? Think carefully, there

will be a variety of transfer holidays, prefectural holidays, and the day when classes end in the morning.

Applicants had better watch the real nature of Ichikawa City's school, High School attached to Chiba University of commerce, Konodai Girls' School, Showa Gakuin Junior & Senior High School, Wayo Konodai Girls' Junior High School & Senior High School, etc. Applicants imagine their future, meet new people, and create their new ideas. By understanding many schools, they should be able to see what they want to do.

## DOMESTIC ISSUES

## Get Online English Lessons Suites You

Currently, there are many Online English conversation schools. Is it possible to survive in the future by doing what is given? Everyone has to think about how to use the existing knowledge in their future lives. Online English conversation takes place at many schools. Because it takes place during an English class. It is difficult for students to select foreign teachers. Many schools use a fixed text. Student-centered classes are not available.

Each Online English

conversation schools has its own characteristics. "English Central" is one company to improve "thinking power, judgment power, and expression power". You can earn points by making short-lived videos of 30 seconds to 5 minutes, practicing pronunciations, or filling words, etc. There are many videos that anyone can handle, some levels from small children to adults. By accumulating points, you can make unlimited use of online English conversation. You can also select foreign teachers

and decide what you want to practice in English. You have to take responsibility for your choice.

Actually, in online English conversation schools, since the partners are foreign teachers in the Philippines, they will tell you gently if you make a mistake. Because you can talk without fear of mistakes, you can learn English without taking risks. At school, students often get bored because they are mainly learning "reading" and "grammar". There is an atmosphere in the class that you

should not make mistakes, so it is bad to ask questions.

It is important to consider what kind of English skills are necessary for you now, and search for those specialized in them.

Let's use various online English conversations to find what suits you.

## Don't Ignore Me[Trash]

Members of Hinode Gakuen Baseball Club picks up trash every Monday mornings. It started out as punitive cleaning. They can finish it quickly if there is little garbage, but they can't. There was more garbage than they had imagined.

Why is this happening? One of the reasons could be if you have any garbage, everyone thinks you can throw it away here. Someone needs to notice the garbage and pick it up. In this

sense, garbage is giving out SOS that everyone notices me.

When humans go out, they should be aware of the lost garbage so that a refreshing day can be reached.

Members of Hinode School Baseball Club will continue their activity for the local people and for themselves.

## EXAMINATION

# To See Your Future Image From Entrance Exam

Sunrise exam image

Photo by Nishibeppu Shige

New types of entrance exams have increased in entrance exams. Hinode Gakuen Junior High School has this new type entrance examination. Its name is "Sunrise Entrance Exam". Examinee

talked about what the students took. In addition, he talked about what measures should be taken.

When examinees come to Hinode Gakuen on the day of the exam,

- ① You will be guided to the test room.
- ② You will be asked for your exam number and your name.
- ③ You will be given a test paper and will be asked to think within 5 minutes. \*
- ④ After 5 minutes, you are instructed to say your answer to the camera within 3 minutes.
- ⑤ After answering, you can leave the room and return home.

Examinees told that the contents of the exam questions were the same as those that were asked in the past. Preparations are difficult because there are countless answers. The best way is not to be afraid of making mistakes, but to communicate what you think in daily conversations and get advice from various people. You should make those advices better for yourself.

By continuing this every day, you can tell your thoughts without fear of mistakes, so that will be a test preparation.

The new type of entrance examination is a test for everyone's ability to live in the future world. It is said that most of the current occupations are only changed to A.I. Robots. There will be many occupations that do not exist now. The entrance exam gives you a hint of what you need to do to get jobs. However, this new type entrance examination is not yet available for high school entrance examinations. Such a new type of entrance examination is necessary for high school entrance examinations with the largest number of examinees.
